

DEFORCE

WWW.DEFORCE.ORG

ABOUT US

DeFi innovation has brought many practical applications to the industry and has promoted the development of open finance, CrossX-Fi; A cross-chain decentralised finance aggregator is actively developing to provide access to over 10,000+ tokens and decentralised finance features, protocols, with permissionless transactions across multi blockchains through CrossX-Fi cross chain interoperability mechanism

CrossX aggregation layer offers users a range of decentralised finance services from decentralised exchanges, tokens bridge/ synthetic assets, staking as a service.

WHY CHOOSE US?

ACCESS YOUR PORTFOLIO, ANYWHERE

The ability to use a smartphone, tablet, or computer to access your account means your funds follow you everywhere.

SECURITY YOU CAN TRUST

2-factor authentication and user-controlled encryption are just a couple of the security features we allow to help secure your portfolio.

ENJOY BLOCKCHAIN FEATURES

Securely trade and hold in your favorites DEX or Exchanges.

STORE ANY ASSET YOU NEED

Whether you're trading newest coins, NFTs or holding BTC, ETH or so on, DeForce has you covered allowing for all coins types to be securely stored and traded.

TOKENOMICS

An abstract graphic featuring a cluster of colorful, 3D cubes in shades of blue, yellow, red, and purple. These cubes are arranged in a dynamic, overlapping fashion. Behind the cubes, there are several thin, glowing blue lines that curve and flow across the dark blue background, which is also speckled with small, distant stars.

OUR PROPOSAL

LOW TAXES

1% Buy and 3% Sell

TOTAL SUPPLY

1.000.000.000.000

SAFU DEVS

With extensive experience
and no wallet of its own

NO HIDDEN MIINTS

Be sure that the initial
supply will be maintained

DEFORCE is our platform's native token.

DEFORCE is primarily a utility token designed to facilitate and incentivize the decentralized governance of the protocol. It is also meant to boost the user experience by unlocking unique features.

We get inspired by the best tokenomics including the one of \$PTP (Platypus), \$CRV (Curve), and \$SNX (Synthetix).

All decisions concerning the usage of the ecosystem and rewards reserve will be done with the DAO.

THANK YOU

ROADMAP

September - October 2022

- Official landing page and resource materials released online.
- Token creation and launch with Initial liquidity provision following diligent audit,
- Token offering and listings,
- Market developments and application beta test-net operations.

November - December 2022

- DEX aggregator, earning protocols and bi-direction bridge implemented with third party audit and bug bounty event deciding an estimated launch date.

January- April 2023

- Cross-chain advanced integrations following alpha launch and DAO creation.
- Fundamental utility expansion, new market developments.
